Orlando Museum of Art Council of 101 34th Annual Antiques Vintage and Garden Show

With an appearance by best-selling author India Hicks

Shoppers, art lovers, flower enthusiasts and anyone looking for a great way to spend a day, get ready: it's time for the 34th Annual Antiques Vintage and Garden Show at the Orlando Museum of Art.

Presented by Council of 101, this event will take place February 19–21, a weekend filled with a dazzling array of collectibles, original art, fine jewelry, silver, porcelain, ceramics, textiles, florals and furniture. Looking for indoor or outdoor décor? There will be a wide variety of unique options on display and for sale. Some of the nation's most reputable dealers will be there, showcasing particularly sought-after merchandise, sharing their knowledge, providing information and suggestions, and answering questions.

The show will also feature speakers and vendors who have information and offerings to help attendees find and fine-tune their style, discover the perfect accent item, or just want to shop. While the show is of particular interest to serious antiques collectors, there really is something for everyone and every budget.

This year's show also features special guest speaker India Hicks. Hicks is a world-renowned author, model, entrepreneur, and TV personality, the daughter of famed designer David Hicks and the goddaughter of the Prince of Wales (she was a bridesmaid to Lady Diana). Hicks will speak at 11:00am on Friday, February 19th, and will be available to sign her books, *Island Style* and *Island Life*. Tickets for this special event (which are separate from general admission) are \$45, and include admission to the Antiques Vintage and Garden Show as well as the Orlando Museum of Art.

Book and art lovers who would like more time to interact with the author will also have the option to purchase tickets for a special VIP event that same day for \$125 per person. VIP access includes the opportunity to experience shopping and refreshments with Hicks, and prime seating for Hicks' presentation.
