## New WhirlyDome attraction to feature WhirlyBall, laser games and more on I-Drive

Filed under: International Drive

Posted by: Anthony Armenia

The WhirlyDome, an attraction featuring WhirlyBall, laser games, a new pub and more is coming soon to International Drive later this Spring.

WhirlyBall is the world's first totally mechanized team sport that combines bumper cars, basketball, lacrosse and hockey into a family-friendly game of fun. The game is played five on five, with players piloting WhirlyBugs as they use a scoop to pass and shoot a plastic wiffle ball at their opponent's goal while bumping and position blocking their way around the court. Every game has an official referee to enforce the rules of the road, keep score and make sure all players have a great time.

Visitors can also take a spin in the SYM 026, North America's first F1 driving simulator, where they will experience the sights, sounds and feel of getting behind a race car. They can also play Laser Frenzy, where players navigate a maze of laser beams, haze and mirrors, as well as the latest in Laser Tag. Visitors will also find pool tables, bowling lanes and a variety of arcade games.

The Bloodhound Brew is where guests can enjoy a beer, lunch or dinner. It's a casual brew pub offering both indoor and outdoor seating and a full menu.

WhirlyDome has multiple party rooms with complete AV capabilities and will provide food and fun for large corporate functions, family reunions and everything in between.

WhirlyDome is located at 6464 International Drive. For more information, visit [whirlydome.com](http://whirlydome.com).
