Hot Looks: Get Strong and Healthy Hair

by [SunHee Grinnell](#)

On the not-so-off chance that you're in the market for a game-changing, head-turning new hair product to give you stronger, fuller hair, here are a few—reviewed and tested—that we highly recommend.

- 1. Neocell Keratin Hair Volumizer:** Another supplement that I am now addicted to! Why? I have thicker and shinier hair! Got to love that. Main ingredient: Super Collagen Type 1 & 3. Test it out for yourself and see the results.
- 2. Viviscal Hair and Scalp Serum:** Those good folks who made [Viviscal supplements](#), which I am a huge fan of, bring you a serum that will further stimulate your scalp for healthier growth of your mane!
- 3. Arrojo Set & Style Spray:** Not a scalp stimulator, but if you want fuller-looking hair and a supersoft volumizer, this is one of the best ones I've tried. I now love my hair even more!
- 4. Nexxus Youth Renewal Elixir:** Dry hair? Check! Brittle hair? Check! Over-colored and -processed hair? Check, check, check! Nourish your hair and scalp with this elixir—your hair will be as good as new in no time! Love this stuff and won't live without.
- 5. Pantene Damage Detox Weekly Rehab Crème:** Mends split ends instantly and leaves your hair looking smooth and extra-healthy.
- 6. Dr. Dennis Gross Skincare Anti-Aging Scalp Serum:** Nourish your hair follicles and roots with this anti-aging serum targeted specifically for your scalp, for thicker, stronger hair. Good stuff.
- 7. Kevin Murphy Body Mass:** Using eyelash-thickening and -lengthening technology, this product is stellar, which helps the hair from thinning. Use it from root to tip on damp or towel-dried hair. Plus, it's paraben-free!
