Foxtail Coffee opens new concept in Winter Park

Foxtail's Farmhouse, a new concept from the popular Foxtail Coffee, is now open.

Connected to the original Winter Park location, the Farmhouse takes the offerings to another level. Amenities include specialty grade craft coffees roasted on site, Foxtail's Gravity Bar selling single-origins and coffee blends, a wine and bubbles bar, cocktails on tap, fresh juice, small bites including vegan options, local pastries, Foxtail Fresh "Craft Convenience" food items to-go, and more. The site also includes the world's largest coffee siphon bar.

There are also experimental coffee drinks, such as the Café Palmer, which mixes espresso, lemonade and sparkling water, and the Coffee Cone Latte, which is a latte served in a milk chocolate-lined waffle cone from Winter Park's Peterbrooke Chocolatier.

Many of the items come from partnerships with other local eateries, including Valhalla Bakery, Blue Bird Bake Shop, Macaw! Foods, DoveCote, and The Courtesy Bar.

The menu also changes seasonally.

Foxtail's Farmhouse carries the original design aesthetic of Foxtail Coffee through with industrial touches and reclaimed wood. It also offers more seating for the original space. In addition to the expanded menu options, the Farmhouse can be used for events and classes.

The opening of Foxtail's Farmhouse is one of many planned for Foxtail. The company recently opened Foxtail's Coffee Bar in downtown Orlando, and plans are in the works for three additional locations.

The new space's hours are 8 a.m. to midnight. Foxtail's Farmhouse is adjacent to Foxtail Coffee at 1282 N. Orange Ave., Winter Park.
