Holiday Inn Express & Suites In South Lake Buena Vista

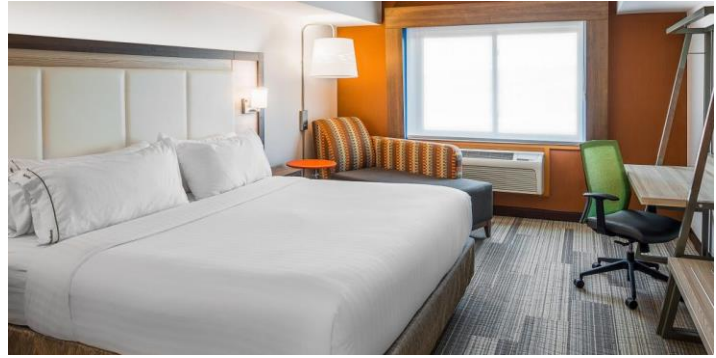

Holiday Inn Express & Suites is known for being a hotel chain that people can trust and offers an excellent service. With locations across the United States and beyond, their newly renovated location in South Lake Buena Vista provides an experience that just can't be beaten. Offering modern style at affordable prices, this resort is located five miles from Orlando's world-class theme parks, shopping, and dining. Not only does the resort offer spacious and comfortably furnished rooms, the **Holiday Inn Express & Suites S Lake Buena Vista** has several shared amenities that families are going to enjoy and appreciate. If you are looking for a modern and affordable lodging destination, you HAVE to go to this resort.

Fresh, Sleek, and Distinctive Accommodations! This describes the Holiday Inn Express & Suites perfectly. From the moment you enter through the front doors to the details found in the guest rooms and campus, you'll quickly see why this **162**-room resort provides the ideal place for families vacationing in Orlando.

We stayed in a guest room with a pillowtop King bed. It was spacious and the modern furnishings and views of tropical outdoor pool areas make for a room you will be comfortable in. Featuring the modern comforts of home such as a separate sitting room with pull out sleeper couch, flat screen televisions with cable, in-room coffee maker, work desk, hair dryer, in-room

safe, cupboard, iPod docking station, and a mini refrigerator, you won't have to wander far from your room if you are looking to relax after a long adventurous day at the parks nearby. As an added bonus the hotel offers your choice pillows, which is something I quickly fell in love with.

All guests receive complimentary WiFi, and a business center provides guests with complimentary computer and printer services.

Start the morning right with the Express Start Breakfast before you kick off your day. Featuring a breakfast buffet filled with everything you could want to start your day including hot Cinnabon cinnamon rolls! You can even grab some fresh fruit for later.

Being in close proximity to the area's prestigious outdoor shopping, dining, and entertainment is HUGE! More importantly, being able to offer guests more than just a place to sleep makes this lodging destination even more enticing. It's like a theme park all in itself and is a place that provides the perfect break from park hopping.

Walk right outside and take a dip in your choice of three pools which include water slides! The shared swimming pools at the Holiday Inn Express & Suites are enormous and cover most of the property around the resort. They also have a Splash Pad for the little ones that don't like to swim.

You won't have to go far from your lounge chair to find food and drink. A Tiki Bar and License to Chill Bar are located close by and offer the perfect food items and drinks to satisfy! You can even visit their mini market store in the lobby to stock up on refreshing drinks and delicious snacks for a day around the resort and pool.

What makes this resort even more unique to guests is that they offer more than just your standard pool and fitness room. They have an 18-hole mini golf available for the avid putters like myself and a playground for the little ones to release some energy. For an additional fee, thrill enthusiasts can take advantage of their adventure park with a zip line, rock wall, slingshot, and bouncy jump.

Need tickets to the parks? Stop in at the concierge desk located in the lobby to purchase tickets to the area theme parks. They even offer shuttle service so you do not have to worry about taking your car and paying for parking.

Finding that perfect place to stay that is family and budget-friendly can be a challenge. As parents or grandparents, we want to give our children and grandchildren the experience of a lifetime without breaking the bank. With many lodging places to choose from in the Orlando area, the **Holiday Inn Express & Suites in South Lake Buena Vista** is one of the best ones to stay at. It is family and budget-friendly, which means you will have plenty of money left over to create memories that will last a lifetime in the Orlando area parks.
